### Make 2018 the Year for You!

As the new year rolls around, many of us focus on changing our behaviors or making a New Year's resolution. For some that might be to balance our personal budget or clean out the garage. However, for many of us, it'll be to lose weight.

## Are Mushrooms the New Anti-Aging Miracle?

Kids may find them icky, but adults should be gobbling these fungi up. Researchers at Penn State University found them to contain unusually high amounts of two antioxidants that can help fight aging and bolster health.

## Flies Disease-Carrying Potential May Be Greater Than Thought

Time to stock up on fly swatters. New study suggests flies carry hundreds of different species of bacteria, many of which are harmful to humans.

## Working to Overcome Antibiotic Resistance Program Aims to Trump Overuse of Antibiotics

In an effort to address the concern for a growing number of patients who are resistant to bacteria fighting medications, Penn State Health St. Joseph pharmacy staff created a team focused on curtailing the routine - and oftentimes uncalled for - use of antibiotics.
